

14-DAY RECORD

Daily Dog Symptom Log

Capture small day-to-day details so you can give your vet a clearer picture.

How to use this

- 1 Start a row each day, even when little changes.
- 2 Use short, factual notes about what you saw.
- 3 Take the completed log to your vet.

Dog details

NAME

AGE AND BREED

CURRENT MEDICINES

VET AND PHONE

WHEN TO CALL THE VET NOW

Do not wait to log it

- Trouble breathing
- Collapse
- Repeated vomiting
- Signs of severe pain
- Suspected poisoning

If in doubt, call.

What counts as useful detail?

Write what you can see or measure. Note the time, how long it lasted and anything that happened just before. Save a photo or video when it is safe to do so.

This log is for your records. It is not medical advice. Call your vet right away if your pet seems in pain or distress.
